

REMARKS:

Applicant has carefully studied the nonfinal Examiner's Action and all references cited therein. The amendment appearing above and these explanatory remarks are believed to be fully responsive to the Action. Accordingly, this important patent application is now believed to be in condition for allowance.

Applicant responds to the outstanding Action by centered headings that correspond to the centered headings employed by the Office, to ensure full response on the merits to each finding of the Office.

Drawings

The drawings stand objected to because the font sizes for the descriptive text labels of Fig. 2 are too small to see clearly when printed.

A replacement sheet for Fig. 2 is presented with this amendment enlarging the descriptive text labels.

The drawings stand object to because Fig. 6 has not been labeled as "Prior Art".

A replacement sheet for Fig. 6 is presented with this amendment correctly labeling the figure as "Prior Art".

Specification

The specification has been objected to due to informalities.

Amendments to the specification to overcome the objections by the Office have been presented with this amendment.

Claim Objections

The claims have been objected to due to informalities.

Amendments to the claims to overcome the objections by the Office have been presented with this amendment

Claim Rejections 35 U.S.C. 112

Claims 6-10 have been rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The Office has stated that claims 6-10 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

Amendments to the claims have been presented to overcome the 35 U.S.C. 112 rejections by the Office. Accordingly, claims 6-10 are now believed to be in condition for allowance.

Allowable Subject Matter

Claim 1-5 are allowed over the prior art of record.

By cancellation or amendment of these claims, applicants only wish to advance prosecution of the present application. Applicants reserve the right to prosecute one or more subject matter in the original claims in one or more continuation applications and that equivalence to these claims have not been relinquished by these amendments.

If the Office is not fully persuaded as to the merits of Applicant's position, or if an Examiner's Amendment would place the pending claims in condition for allowance, a telephone call to the undersigned at (813) 925-8505 is requested.

Very respectfully,

SMITH & HOPEN
